

Dear Colleagues,
It gives me immense pleasure to invite you to Shillong, "Scotland of the East" for the first mid-term CME of Association of Phonosurgeons of India. The CME will be conducted in North Eastern Indira Gandhi Regional Institute of Health and Medical Sciences, which is an 'Island of Excellence' established by the Govt. of India, 1987. On 22nd January, 2000, the then Hon. PM of India, Shri Atal Bihari Vajpayee declared NEIGRIHMS as "Institute of National Importance".

Phonation and Swallowing are two of the most important components in human physiology. A series of illnesses of varied pathology, starting from benign diseases to neoplastic lesions, requires advanced investigations and treatment. Lots of new technology and recent advances have been developed in the modern management of voice as well as swallowing disorders. Continuing Medical Education is the platform where various discussion gives the opportunity of management of various illnesses and allow us to update our knowledge in modern medicine.

Dear colleagues, I hope this CME will widen your knowledge in the field of phonosurgery and also your stay in Shillong will be a memorable one. We are waiting to extend our warm hospitality to you.
