

Dr. Sharmishtha Patra MS, FRCOG

Gynecologist, Obstetrician &
Laparoscopic Surgeon

TREATMENT OF PAINFUL PERIODS

Period pain can often be managed
effectively, depending on the cause.

Pain-relieving
medicines

Hormonal treatment
when appropriate

Treatment of underlying
conditions like
endometriosis or fibroids

Don't ignore severe
or persistent period pain.

Consult a gynecologist for
the right treatment.
