

# Endoscopic Nasal and Sinus Surgery (FESS) in Kolkata

## What is FESS?

Functional Endoscopic Sinus Surgery (FESS) is a minimally invasive treatment for chronic sinus issues. Using an endoscope, the surgeon operates through the nostrils to improve sinus drainage.

## Conditions Treated

- ✓ Chronic sinusitis
- ✓ Nasal polyps
- ✓ Recurrent sinus infections
- ✓ Deviated septum (often corrected with septoplasty)
- ✓ Nasal or sinus tumors

## Benefits

- No external incisions or scars
- Improved sinus drainage
- Enhanced delivery of medications to sinuses
- Shorter recovery times
